Welcome to SmartCon!

Hey everyone,

Welcome to San Antonio—and welcome to SmartCon 2026!

This year's theme is Viva Innovation, and there's no better place to celebrate it than right here in the heart of Texas. I couldn't be more excited to have you here.

This event exists because of you—the leaders, the innovators, the people who show up every day to build something great. You're the ones pushing this industry forward, and that spirit of innovation is exactly what we're here to fuel.

SmartCon isn't about sitting through presentations. It's about rolling up our sleeves together. You'll walk away with real action plans, built alongside peers who get it because they're facing the same challenges you are.

Over the next few days, take advantage of every workshop, every conversation, and every connection. The people in this room represent some of the best in the industry—and that includes you.

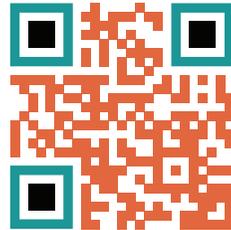

And yes, we're going to have some fun along the way. (The Alamo party is going to be one for the books.)

Thanks for being here. Let's make it count.

It all starts with WATER!

Save Water. Give Life.

Water sustains our landscapes, communities, and lives. Yet, it's the fastest-growing utility expense—with over 50% wasted. Meanwhile, 844 million people worldwide lack access to safe drinking water. This is both a crisis and an opportunity to create real change.

People Need Clean Water

Lack of Access

844 million people live without clean water or sanitation including 1 in 5 children.

Contaminated Sources

More than 820,000 people are estimated to die each year due to water-related illnesses.

Provide Safe Water
